

But there are problems

And in the Days Ahead ^{Both} the Quality & Credibility of our system will be Sustained only

1) As we work ~~together~~ to strengthen the national school

2) As we build consensus with the wheel into

3) As we strike a better balance among interests between teach & research

4) As we involve the faculty more fully in the governance of the institution

And finally
As we offer to the young man & woman not just credits but a solid Education

And these are the things

First we have a ~~inter~~ guts and
goals -

Q Can we have mass higher or value is well

Can we preserve the consistency
of the data - and also preserve
the whole info

to spend a year in the mountains.
